

Messa di Voce Installation Plan

Golan Levin and Zachary Lieberman

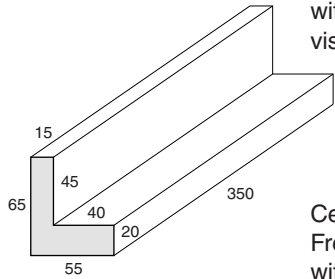

Notes:

1. Viewing area for DVD has been widened to 200cm.
2. Equipment closet has been added.
3. Plan calls for the construction of a footstool/barrier.

Video projection is 2.4m x 1.8m at wall

Constructed barrier and footstool, 65cm high, with 20 cm step, prevents visitors from blocking IR lights

Ceiling-mounted Fresnel theater lights, with barn-doors and infrared filters

LCD screen and USB knob mounted on wall for user control

Plasma screen with stereo sound system
